

# About eShipping Products and Services

Integrated business solutions for the entire supply chain

eShipping is a core technology and logistics service provider to the transportation marketplace. We are a diverse company that provides seamless, one-stop service to customers of outsourced (or third party) logistics services for part, or all, of their supply chain management functions. We specialize in the integrated operation, warehousing and transportation services that can be scaled and customized to each customer's unique needs based on market conditions and delivery service requirements.

As a private company, eShipping is able to focus resources on meeting and exceeding demands of the marketplace and providing competitive advantages to clients and partners. One advantage consistent with our commitment to remaining at the forefront of technology is the creation and continual evolution of the eShipping hosted Transportation Management System (TMS).

Logistics Services

## TRANSPORTATION MANAGEMENT SYSTEM (TMS)

Our comprehensive system is truly a fully integrated tool for managing the supply chain, giving CEOs a top level view of data for the entire supply chain and allowing shipping managers intuitive access to day-to-day operations. It allows accounting the ability to sync their systems to track all costs and features the following additional functions:

### Shipment Optimization & Execution

- Supplier and customer access
- Least cost carrier selection
- Multi mode optimization

### Shipment Tracking

- Automated tracking

### Analysis

- Historical review
- Simulation modeling

### Auditing

- Carrier invoice verification

### Reporting

- Automated & customizable
- User-based reporting

### Cross-Platform Integration

- eBOL, status, invoice, etc.
- EDI, XML, CSV, etc.
- API, web service calls

### Bill Payment and Invoicing

## SUPPLY CHAIN CONSULTING

Assisting clients in building supply chains that allow for innovation and adaptation to changing conditions while achieving high performance.

## TRANSPORTATION MANAGEMENT

Working on each client's behalf, negotiating with carriers and designing customized packages for clients with large volumes or specialized requirements.

- Less Than Truckload (LTL)
- Full Truckload
- Ocean Freight
- Air Freight
- Parcel
- International

## STRATEGY & IMPLEMENTATION

After a comprehensive evaluation of your business, we develop a sound strategy and guide you through each step of the implementation.
